

BURKE PORTER GROUP COMPLETES ACQUISITION OF TITAN, INC.

Grand Rapids, Michigan – January 29, 2018 – Burke Porter Group, a global collective of intelligent machinery manufacturers, today announced that it has acquired [Titan, Inc.](#), a leader in the design and manufacture of test stands and production assembly systems.

The acquisition continues the group's accelerated growth and expands their hydraulic testing and assembly equipment offerings globally. Milwaukee-based Promontory Point Capital represented the sellers in this transaction.

[Burke Porter Group](#) serves the global automotive, advanced manufacturing and life science markets, maintaining more than 30 locations in Europe, Asia and the Americas. As the newest member of the Burke Porter Group family of companies, Titan joins Kleinknecht, LISMAR, Universal Balancing, CIMAT, Epic Equipment & Engineering, XL Machine Co. Inc., Korvis, Primatics, and the Burke E. Porter Machinery Co.

Since 1966, Titan has evolved from a tool and die business to consistently developing custom-engineered test solutions for hydraulic, vehicle, and powertrain applications. The company's customized approach allows them to engineer a cost-effective and ergonomically sound product, tailored to the customer.

Titan's solutions are widely used by world-leading off-highway OEMs and their tier one suppliers within the agriculture, construction, hydraulic components and forestry markets.

As a member of the Burke Porter Group family, Titan will continue to develop robust test stand and assembly solutions, headquartered in Sturtevant, Wisconsin with no changes in day-to-day operations.
