

FMHC Corporation Acquires MDM Construction, Inc.

Chicago, IL, July 19, 2010 -- FMHC Corporation, a turnkey wireless site development provider announces the acquisition of Schaumburg, IL based MDM Construction, Inc., a full service general contractor providing installation, maintenance, technical and construction services to the wireless industry. In addition to FMHC Corporation, the FMHC family of companies will now include FMHC Telecom Group, FMHC Global, FMHC Design and MDM Construction. MDM Construction will continue to operate under the MDM name. Joe Marchese, current President of MDM Construction, will remain with the new company as Vice President of MDM Construction under FMHC, reporting to FMHC Corporation's President, John Cankar.

"We continue to see rapid growth in the wireless industry, and consequently an increase in demand for cost effective and quality design and deployment services to accommodate that growth from our wireless network clients. By adding MDM Construction, FMHC can now offer a true full-turnkey solution to our customers in North America," said John Cankar, President of FMHC Corporation. "With MDM as a part of the FMHC portfolio we can now self-perform real estate, zoning, architecture, engineering, construction, installation, and maintenance services. With this self-performance ability we believe we can now offer one of the most cost-effective and highest quality wireless network solution in the industry."

Over the past 25 years FMHC Corporation has become a nationwide leader in turnkey telecommunications site development. They have performed site acquisition, construction management and project management for thousands of cell sites and all major wireless carriers across the United States. With the addition of MDM Construction, FMHC Corporation's service offerings will now include RF planning, design and optimization, site identification, real estate leasing, zoning and permitting services, architecture and engineering design, general construction, construction management, equipment installation and maintenance, technical services, project management, and outsourcing of personnel at more than 10 offices across the country.
